

Asset Protection

PROTECTING THE WORLD'S MOST VALUABLE BRANDS.

Asset Protection is an obligation in the post-911 world. PICA Corporation offers cost-effective security solutions which are client-centric and aim to deliver the most effective deterrent, with the least amount of business disruption. PICA works carefully to integrate our solutions into our clients' existing security structure. This saves money and time, while bolstering areas that are deficient. Our Asset Protection services include:

- Comprehensive security audits and consultations
- Armed and unarmed guard services*
- Vehicle/foot patrol and inspection services*
- Fire patrol and equipment checks*
- Electronic fleet monitoring*
- Applicant processing and new employee orientation
- Employee and visitor badging and identification*
- Transportation services*
- Investigation of a specific threats or losses
- Alarm installation, monitoring and emergency response*
- Access control installation and monitoring*
- CCTV installation Monitoring*

Our clients have consistently looked to PICA to provide answers to their complex security challenges. Through our strategic alliances, PICA has the unique ability to offer a full range of asset protection services including audits and consultation, physical security installation and monitoring, and contract security guard services on a localized basis anywhere in the world.
