

Travel Security and Safety Pre-travel Preparation to Mitigate Risks:
When supporting employees traveling abroad, we recommend a holistic approach to employee safety and security while traveling, especially internationally.

Potential Concerns:

Health Risk – (greater risk than kidnapping)

- Malaria, gastrointestinal illness, and vaccine preventable infection
- Poorly controlled health or dental conditions

Safety Risk

- Injury or illness related to vehicular transportation
- Poor hygiene at public venues, hotels, restaurants etc.

Security Risk

- Travel disruption, safe and secure business activities

Compliance Risk

- Adequate health insurance coverage
- Visa, contract, and work permit requirements

Information and Cyber Risk

- Unauthorized access to company sensitive information via smartphones, tablets, lap tops etc.
- Eavesdropping accidental and government sponsored, social engineering

Executive Protection

Any company's most valuable assets are their key people. The first order of any successful security program is to ensure

that their people are kept out of harms way.

Self-directed Business Travel Preparation Checklist:

- Update emergency contact information in company personnel records.
- Leave a copy of your itinerary with trusted family member or friend.
- Have adequate prescription medications, glasses/contact lenses prior to travel.
- Obtain required vaccinations and preventative medications, based on destination.
- Keep a copy of emergency contact information.
- Add U.S. Embassy phone numbers and address to your contact lists.
- Review country information and any travel advisories.
- Add local emergency response contacts (security/health) to contact lists.
- Check fit and function of any personal protective equipment.
- Make a copy of passport.
- Carry medical kit and hand sanitizer.
- Pre-arrange ground transportation.
- Request a hotel room on lower floors.
- In high risk countries, consider a clean computer/smart phone to minimize cyber compromise.
